

On behalf of all participants of the workshop,  
I would like to thank

Robert Edwards

Balint Joo

David Richards

Tony Thomas

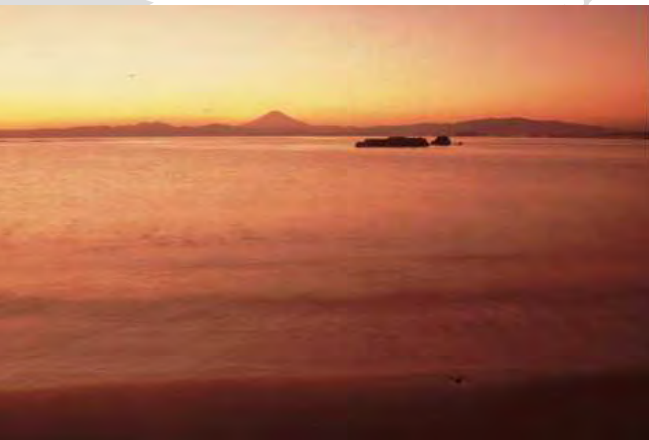

for their enormous efforts to make this  
workshop very successful and interesting,  
and other staff members  
for their supports and warm hospitalities  
during the workshop .

Coming soon ....

# **4<sup>th</sup> ILFTN Workshop “Lattice QCD via International Research Network”**

**@ The Graduate University for  
Advanced Studies (Sokendai) /  
Shonan Village Center, Japan**

**March 8-11, 2006**

Hosted by

Center for Computational Sciences, University of Tsukuba  
High Energy Accelerator Organization (KEK)

- 
- **Wrap-up workshop for the Japanese funding**
    - summarize what we have achieved so far.
    - its impact on our research and on the outside of our field.
    - what to do.
  - **Prepare for the official ILDG start-up**
  - **More physics discussions...**

**Hope to see you in Japan!**
