

PCaPAC
2006

Newport News, Virginia USA

The 6th International Workshop on
Personal Computers and
Particle Accelerator Controls

October 24-27, 2006

Major Topics

- Control system status
- Hardware technologies
- Data Acquisition
- Commercial software packages
- Presentation layer
- Field buses
- Embedded systems
- Control system porting
- Security
- Software technologies
- User perspectives
- Databases and controls
- Change management of running systems
- PC vs. control system longevity
- Future developments and trends

Organizers

- Matt Bickley
- Pavel Chevtsov
- Hiroshi Nishimura
- Deborah Quock
- Ernest Williams
- Ron Chestnut
- Luciano Catani
- Philip Duval
- Reinhard Bacher
- Mark Plesko
- Alexander Lukyantsev
- Shin-ichi Kurokawa
- Ajith Kumar
- BeiBei Shao
- Tadahiko Katoh
- Ryotaro Tanaka
- In Soo Ko

hosted by Jefferson Lab

Portland Cement Association's Political Action Committee

Home	
Get Involved	PCA is the nucleus of the North American cement industry's work in research, market development, educational, and government affairs. PCA provides a full range of products and services to its members, cement companies in the United States and Canada.
Support Criteria	U.S. membership includes 31 companies operating 107 cement plants in 34 states, with distribution centers in all 50 states serving nearly every Congressional district. PCA members account for 97 percent of cement-making capacity in the United States and 100 percent in Canada.
FEC Regulations	From its Skokie, Ill, headquarters, PCA seeks to improve concrete and concrete construction and to ensure concrete's use in an ever-growing range of applications.
Contribute	PCA's Washington, D.C., office represents the U.S. cement industry in government affairs.
