

Hadron2016 at Wuhan

8th Hadron 2016

8/8/2016

CCNU

Tenured Chairs: J.P. Chen and H. Gao
2016 co-Chairs: X.S. Chen¹ and N. Xu²

¹ Huazhong University of Science and Technology (HUST)

² Central China Normal University (CCNU)

Wuhan, China

Where is Wuhan?

Wuhan is in the center of China, aside the ancient Yangzi River

Within 1000km,

- Institute of Particle Physics (since 1987) and the MoE Key Laboratory for Lepton and Quark Physics (since 2007)
- Strong Theory Group for High-Energy Nuclear Collisions
- Strong Experimental groups for STAR at RHIC, ALICE and LHCb at LHC, CBM at FAIR
- High-tech lab (PLAC) for high energy physics and applications
- Dedicated computer center (NSC³ under construction) for LGT, Model simulations, and data analysis

Hosted International Conferences: ISMD1991, ISMD2001, SQM2008 (co-host), QM2006 (co-host), CPOD2011, xQCD2015, HP2016, ... Workshops annually

Chinese High-Energy Nuclear Collision Physics Community

- 1) RHIC STAR: 50 participants
- 2) LHC ALICE: 20 participants
- 3) Theory: more than 50
- 4) Strong collaboration with colleges from India, Japan, Korea
- 5) Institute of Modern Physics: HI beam 1 GeV/u.
In 2020, planed to have HI beam at $\sqrt{s_{NN}} \sim 5$ GeV/u

**Welcome All of You
to
Wuhan in 2016!**
